Office Action Summary

Art Unit: 1734

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to apparatus, classified in class 271, subclass 160.
- II. Claims 11-20, drawn to apparatus, classified in class 118, subclass 410.

The inventions are distinct, each from the other because:

Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination does not require the at least one bearing mounting the back support with freedoms of movement in a plurality of directions relative to the implement. The subcombination has separate utility such as the subcombination can be used to urge the substrate against another roller for sole purpose of gripping the substrate without coating the substrate.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Art Unit: 1734

A telephone call was made to Attorney Kinberg on 9/25/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Any inquiry concerning this communication should be directed to Brenda Lamb at telephone number 703-308-2056. The examiner can normally be reached on Monday and Wednesday through Friday with alternate Tuesdays off.
